IDENTIFY DROWNED WOMAN.

Body Found at Coney Island That of
H. R. T. Bookkeeper.

The woman's body found yesterday in the sea near Coney Island was identified today as that of Miss Estelle G. Morrow, a bookkeeper for the Brooklyn Rapid Transit Company. She had been employed by the R. R. T. for the last twenty years and came from Albany.

About a year ago Miss Morrow suffered a nervous breakdown. She returned to the Brooklyn office shortly before Christmas and said she was feeling better. She disappeared Saturday afternoon.

Miss Morrow had resided with Mrs. Johnson at No. 85 Union Street, Brooklyn, for five years. Mrs. Johnson said she believed Miss Morrow's mind was unbalanced by illness.

"EDISON PIONEERS" CONSERVE IN FOOD AND SPEECH AT FETE

The "Edison Pioneers," old associates of the noted inventor, held their first annual meeting yesterday in celebration of the seventy-first birthday of Mr. Edison. Though the festivities were somewhat

tempered by war, the Pioneers' acclamation of the patriotic inventor was not. Speakers called Mr. Edison "the greatest of patriots, the greatest inventor of them all."

HOOVER DEMANDS
DRASTIC POWERS
TO AVERT HUNGER

Nation's Supply Is Far Behind Her Actual Needs, He Tells Congress.

WASHINGTON, Feb. 12.—Food Administrator Hoover demands immediate action on the bill to conserve foodstuffs and establish "wheatless" and "meatless" days.

He has informed the House Committee on Agriculture that drastic action is required because of shortages in the Nation's food supplies available for the six months from Jan. 1 to July 1, 1918. He produced figures showing marked decreases in cereals, fats and meats, and showed that conservation of foodstuffs has been largely responsible for much of the Western corn crop rotting in the fields.

Instead of a bumper corn crop, as generally supposed, the available supply is greatly cut down. Instead of producing 2,500,000,000 bushels, only about 2,000,000,000 bushels were produced. Mr. Hoover estimated there remains enough dry corn to supply the Allies and the American people approximately 127,000,000 bushels for this country and 90,000,000 for abroad. This provides nothing for animals.

There are only 100,000,000 pounds of beef when there should be 450,000,000 pounds, Mr. Hoover declared, and it was shown the Nation is short from 600,000,000 to 1,000,000,000 pounds of such fats as pork products and vegetable oils, about 50 per cent. of what is required.

The available supply of wheat for consumption before the new harvest is only 70 per cent. of what is required. The minimum supply on hand is estimated at 257,000,000 bushels and the maximum 281,000,000 bushels.

These figures show it is necessary to take drastic steps, Mr. Hoover said, and he urged the imperative need of the most careful conservation by everybody. He did not go into the details of the administration of the law.

The results of an investigation into the transportation problem were laid before the committee. Mr. Hoover said he found that 700 cars of foodstuffs were on the tracks 120 days, 600 were on the tracks ninety days. He indicated that the car service would be improved in from fifteen to twenty days, and special efforts will be made to bring the corn from Western fields.

sponsored by The Evening World to force retail grocers and other dealers to food stuffs to placard their wares with the price of their cost and the selling price.

"This measure has resulted in unlimited good in the protection of the public—especially the people without great means," said Mr. Waldorf. "I am glad to see that it is being so thoroughly observed in New York."

He added that another conservation measure which had its beginning in New York—the organization of society women to move for conservation in their kitchens and of their servants to further this ideal—was being copied in Chicago, St. Louis, Boston and San Francisco. It, too, was having beneficial results, he said.

CHICAGO GIRL DETAINED
IN GERMANY TO RETURN

Miss Slocum, Singer, Gets Passports After Being Held Virtually a Prisoner.

CHICAGO, Feb. 12.—Miss Blanche Slocum of Chicago, a singer, who has been virtually held a prisoner in Germany, finally has succeeded in obtaining passports, her father, E. H. Slocum, was advised today in a message from the American Consul General at Zurich, Switzerland.

Miss Slocum had been studying music in Berlin and soon after the outbreak of the war she was offered an engagement with an opera company in Munich. She was not permitted to enter, and officials revoked her passports.

EDGE MAKES APPOINTMENTS.

Names Enrich I. Johnson to Be Clerk of Supreme Court.

TRENTON, N. J., Feb. 12.—Enrich I. Johnson of Atlantic County, was nominated by Gov. Edge today to the Senate for Clerk to the Supreme Court to succeed William C. Gebhardt. Alexander H. Phillips of Princeton, was chosen as a member of the Fish and Game Commission. Other appointments are:

Dr. J. C. Van Dyke of New Brunswick, State Board of Education; A. J. Meerwald of Cape May, Board of Shell Fisheries; Frederick Sutrell and W. H. Porter, Interstate Park Commission; Oliver Kilday and Dr. H. E. Winter, State Board of Health; J. H. Trewin of Flemington, Hunterdon Tax Board; and W. C. Allen, Gloucester, and E. J. Bosler, Warren Tax Board.

BAUER COMING TO PROSECUTE

Proceedings Against Alleged Black-matter Postponed.

Harold Bauer, pianist, is on his way to New York from Detroit to appear against Clarence Nurse, accused of attempted extortion. Nurse was held in \$5,000 bail today before Magistrate Groen in the West Side Court. Twelve lawyers and one told the Magistrate Mr. Bauer had requested that proceedings be held up and the request was granted.

Nurse was arrested last night as the result of a letter mailed to Bauer calling him the head of a band of spies and demanding \$2,000 for the writer's silence.

To Increase State Constabulary.

ALBANY, Feb. 12.—A bill designed to increase the State constabulary force by the addition of another troop, making five in all, was introduced in the Legislature last night by Assemblyman Macdonald, Chairman of the Ways and Means Committee. The measure also would raise the salary of the Deputy Superintendent of State police from \$2,500 to \$2,600 a year.

G. O. P. CONFEREES
SEEK COMPROMISE
ON CHAIRMANSHIP

Republican National Committee Chiefs Adjourn in Effort to Get Together.

ST. LOUIS, Mo., Feb. 12.—Just before the hour of meeting of the Republican National Committee, leaders this afternoon stated that an adjournment until to-morrow would be taken to give time for further efforts to reach a compromise on the Chairmanship.

Mr. Littleton, who was seated as committeeman for Tennessee, is for Adams for National Chairman.

The Resolutions Committee of the Executive Committee drafted resolutions for presentation to the full committee this afternoon. They endorsed the stand taken by Republicans in Congress in voting for the Susan B. Anthony Suffrage Amendment, suggested that the Administration at Washington avail itself of the assistance of the ablest men in the country, regardless of politics, in the prosecution of the war; included a tribute to "gratitude and affection" to Theodore Roosevelt, and pledged support in the prosecution of the war.

The Roosevelt resolution follows: "We, the representatives of the Republican Party, in only constituted official conference assembled, send you in this hour of pain and shadow, a tribute of our gratitude and affection. We take courage and strength from your example in constant counsel for preparedness against aggression on land and sea, and in fearless maintenance of American honor in the face of all mankind. We fervently pray for your speedy return to perfect health and strength as a power for national self-respect and international righteousness that cannot be spared."

When the drift toward Will H. Hays for Chairman of the party became more pronounced at noon, his backers came out publicly for the first time and claimed his election without reservation.

There was a division of sentiment in the Adams camp. Certain of the Iowa's supporters favored withdrawal of his name before the committee meets. To discuss this the Adams leaders met in caucus at 12:15. Fred Stanley of Wichita, National Committeeman for Kansas, was mentioned today as a candidate for Chairman of the Republican National Committee.

Pay leaders this morning inquired into his qualifications and there were evidences in view of the struggle between the supporters of John T. Adams of Ohio and Mr. Hays.

In the small hours of the morning it was announced at Adams' headquarters that he positively will be a candidate.

Opposing the Iowa will be Will H. Hays of Indiana, unless there is a sudden shift in the plans of the anti-Adams contingent.

A letter written by Adams during a tour of Germany three months after the outbreak of the European War was read before the party's Executive Committee late yesterday by Senator Calder of New York. It indicated, anti-Adams members of the committee asserted, that Adams entertained at that time a friendly sentiment toward Germany.

The letter threw the National Committee into confusion. The restraint that had marked the deliberations of the committee was swept away in a moment. The last hope of harmony was dispelled.

BARNETT STAYS
OVER MARINES.

Commander of Corps to Be Reappointed, Daniels Announces.

WASHINGTON, Feb. 12.—Major Gen. Barnett, commander of the Marine Corps, whose term is about to expire, will be reappointed Secretary Daniels announced today.

ICE CONSERVATION
MEASURE PASSED;
SOCIALISTS SCORED

Assemblymen McCue Denounces Ten of Opponents as "Most Unpatriotic Men."

ALBANY, N. Y., Feb. 12.—The Wagner-Kenyon Ice Conserving bill was passed by the Legislature today. In the Senate the vote was 25 to 3, and in the Assembly 101 to 14. The measure, which would appoint former Gov. Benjamin D. Odell as State Ice Comptroller and would authorize him to harvest and store natural ice so that ammonia used in the manufacture of artificial ice might be employed in the production of ammunition, was sent to the Governor for signature.

A lengthy debate preceded passage in both Houses. In the Lower Chamber Assemblyman McCue, a New York Democrat, bitterly arraigned the Socialists for opposing the measure. He characterized them as "ten of the most unpatriotic men that ever lived."

Only nine of the Socialists were present. All voted negatively, explaining their position by the declaration that the bill was not broad enough in its provisions.

Other negative votes were cast by Assemblymen Jenks, Snyder and Youker, Republicans, and Link and Sutherland, Democrats. Their objection, likewise, was that the measure was not strong enough to meet the present emergency.

Democratic Leader Donohue charged that the Republicans had played politics in amending the bill, which originally bore the name of Democratic Leader Wagner of the Senate, so that it could be separately introduced in the lower house and eventually bear the name of a Republican sponsor.

In the Senate George F. Thompson of Niagara spoke against the bill, declaring that it would assist the profiteer in war time.

"This bill is a disgrace," he said, "that the man who cuts the ice and gets a profit, and it shields him from competition by putting the manufacturer of artificial ice out of business."

On the roll call Senators G. F. Thompson, G. L. Thompson, Gilchrist, Graves and Lawson, all Republicans, were recorded against the bill.

GET READY TO SHIVER!
HERE'S A GHOST STORY

Headless Man, Rapping, Strange Lights and Even Bones in Cellar All True to Form.

HARRISBURG, Pa., Feb. 12.—B. H. Corby, after hearing mysterious noises and seeing apparitions for months, last night dug in the cellar of his home and found a small coffin containing quicklime and human bones. According to Corby, a mysterious headless man has been bothering his family for some time, and every night at a regular hour the sitting room above cracked three times. There have also been odd rappings.

In the cellar a strange light appeared every time one of the family went down, Corby said.

When Corby dug up the coffin of bones, he says, the noises became worse than ever. The police are investigating today.

MOTOR TRUCK TRAIN COMING.

Development of Army System Depends on Run from Buffalo.

BUFFALO, N. Y., Feb. 12.—Sixty-three motor trucks, in charge of army engineers and carrying war supplies left here at 10 o'clock this morning for New York. The trucks will pass through Rochester, Geneva, Syracuse, Utica and Amsterdam. Leaving Albany they will travel along the east bank of the Hudson.

A further development of motor truck transportation of army supplies to the seaboard will depend on the success of the trip.

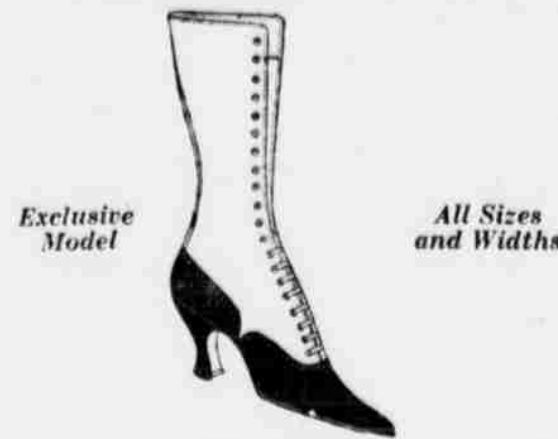

Keeping the Quality Up.

LAXATIVE BROMO SENSINE, The World's Famous Cure for Colds and Coughs, is now 50c. The price of the six different Medicinal Concentrated Extracts has been raised to 15c. LAXATIVE BROMO SENSINE, it is necessary to increase the price of the product. It has about the best for a Quarter of a Century. It is used by every Civilized Nation.—Advt.

Public Protected by Display of Cards Giving Wares and Prices, Says Walcott.

R. C. Walcott, Hoover's personal representative in the National Food Administration, in New York today to confer with local food executives, gave high praise to the success of the movement

to increase State Constabulary. ALBANY, Feb. 12.—A bill designed to increase the State constabulary force by the addition of another troop, making five in all, was introduced in the Legislature last night by Assemblyman Macdonald, Chairman of the Ways and Means Committee. The measure also would raise the salary of the Deputy Superintendent of State police from \$2,500 to \$2,600 a year.

A noted Cincinnati chemist discovered a new ether compound and called it freeze-one and it now can be had in tiny bottles for a few cents from any drug store. You simply apply a few drops of freeze-one upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just

Corns Stop Hurting, Then
They Lift Out With Fingers

No pain or soreness! Corns and calluses just shrivel up and lift off—Try it!

lift it off with the fingers. Really! No hump! No pain, not a bit of soreness, either when applying freeze-one or afterwards and it doesn't even irritate the skin. Hard corns, soft corns or corns between the toes, also toughened calluses just shrivel up and lift off so easy. It is wonderful! Works like a charm. Keep it on the dresser.
